

Pfizer has implemented a new standard approach for full transparency of grants to patient organisations. With this new commitment, we are among the leading biopharmaceutical companies to embrace a policy of full transparency for grants to patient organisations across all countries in Europe. We are committed to operating with the highest standards of ethical, transparent and responsible conduct in all aspects of our business, including our relationships with patient advocacy groups. We will continue our efforts to lead industry standards and practices in ways that meet society's expectations of us.

Pfizer Healthcare Ireland Patient Association Funding Disclosure 2011

IPPOSI – Irish Platform for Patient Associations, Science and Industry

IPPOSI is a unique partnership of Patient Groups/Charities, Science and Industry. As a patient led partnership, the platform provides a structured way of facilitating interaction between the three key membership groups (patients' organisations, scientists and industry (and where possible with State Agencies) on policy, legislation and regulation around the development of new medicines, products, devices and diagnostics for unmet medical needs in Ireland. In 2011 Pfizer supported IPPOSI through the payment of an annual membership fee of €7,500.

Chronic Pain Ireland

CPI provides information and support to those living with chronic pain, their families and friends. In addition CPI campaigns for greater recognition of chronic pain as an illness and improved services for patients living with chronic pain. In 2011 Pfizer supported these efforts through educational grants totalling €20, 828.

Medical Research Charities Group

The Medical Research Charities Group (MRCG) is an umbrella group of medical research and patient support charities, which originally formed to represent the joint interests of charities specialising in restoring health through medical research, diagnosis and treatment and, where possible, the prevention of disease. In 2011 Pfizer supported the development activities of the MRCG with a grant of €4,000.
